

NIC BASE SOURCING.

Sources that were around before are vanishing. Get your nic supply and keep it in the freezer - prepare for the worst. Flavors shall always be around, but nic base, maybe not.

Quick answer:

Order: 100mg/ml in PG

From: <https://nicbase.com/100mg-ml-nicotine-nicbase-concentrate/>

FOR MAX VG: Choose 100mg/ml in VG

Long answer:

Because retail shipping availability shifts rapidly based on carrier coverage and state excise tax laws, you will need to check your specific ZIP code at checkout with the following reputable chemical and DIY vendors:

Delosi Labs

Flavoring and chemical supply manufacturer that has historically supplied high-purity USP-grade nicotine solutions.

100mg/ml in PG

<https://nicbase.com/100mg-ml-nicotine-nicbase-concentrate/>

100mg/ml SALTS **NOTE: An Alicandrian reported that this product is harsh! No longer recommended.**

<https://nicbase.com/100mg-ml-nicotine-salt-nicsalt-concentrate/>

Shipping Notes: Periodically updates shipping pathways based on commercial compliance. You must enter your delivery address directly to see if non-commercial delivery is open in your area.

Central Vapors

Longstanding domestic vendor that continues to maintain retail compliance for unflavored nicotine bases in PG, VG, or custom ratios.

100mg/ml in PG

<https://www.centralvapors.com/liquid-nicotine/>

SALTS 250mg/ml <-- NOTE, needs different recipe

<https://www.centralvapors.com/liquid-salt-nicotine/> NOTE: THIS IS 250mg/ml - a different calculation. Email nicole@aliceinvapeland.com for a recipe for using this.

Shipping Notes: Ships via regional ground carrier networks. Requires adult signature verification (21+). Service availability varies by state and ZIP code.

Perfect Vape

A high-volume distributor supplying unflavored nicotine base, PG, VG, and mixing equipment.

100mg/ml in PG is **not** available, but 24mg/ml is - a different calculation.

<https://perfectvape.com/unflavored-nicotine-base-nicselect/>

100mg/ml SALTS

<https://perfectvape.com/salt-nicotine-base-solution/>

Shipping Notes: Uses private third-party carriers to serve a broad range of states, though transit times are typically longer than standard parcel services.

Nicotine River (Our preferred source, but shipping is restrictive)

100mg/ml in PG

<https://nicotineriver.com/collections/purnic%E2%84%A2-nicotine/products/purnic-nicotine-100mg-ml?variant=39369461760196>

100mg/ml SALTS

<https://nicotineriver.com/collections/purnicsalt%E2%84%A2-nicotine/products/purnic-smooth-nicotine-salt-100mg-ml?variant=39369463759044>

Other Vendors, no review or report on them yet:

This one is quite reasonable, 12.99 for a 60mL of 100mg/ml nic base in PG, quality unknown.

Key Precautions for 100 mg/mL Handling

100 mg/mL (10% pure nicotine by volume) is a high-potency chemical concentrate that presents acute dermal absorption and toxicity risks:

Personal Protective Equipment: Always handle with chemical-resistant nitrile gloves, safety goggles, and in a well-ventilated space.

Storage: Store in airtight **glass** bottles (such as amber Boston rounds) to prevent oxidation, kept in a cool, dark environment, and strictly locked away from children and pets.

Calculations: Always double-check dilution math before compounding into final bases to prevent severe accidental overdosing.

MAX VG: Order 100mg/ml in VG
